

# RV Appliances

## RV Absorption Refrigerators

While the typical residential refrigerator is more like an air conditioner since a mechanical compressor is utilized, the RV absorption refrigerator remains a mystery to many. It is probably the most perplexing of all the LP-burning appliances found in the typical RV today. Understanding the theory of absorption and “absorbing” why it takes heat in order to make cold can be mysterious even for the most engineer-like amongst us.

## RV Ranges and Cooktops

RV Ranges and Cooktops typically operate on LP Gas and are built to take the pounding of the road with all the safety features of your home range. They are also lighter weight to help save on fuel and very efficient.

## RV Water heaters

Water heaters includes high recovery gas, gas-electric and motor aid models with sizes and features to match the requirements of almost any RV. Sizes include 4-, 6-, 10-, 12- and 16-gallon models.

## RV Air Conditioners

RV Air Conditioners come in a lot of different configurations, standard height, low profile, direct discharge, ducted, single zone t-stats and multi-zone t-stats
